Subject: Comments regarding California Renewable Electricity Standard Workshop
October 30, 2009

Dear Mr. Mehl,

Please find attached comments regarding bioenergy in the California Renewable Electricity Standard, based on the October 30, 2009 workshop. Antares is an independent consulting and project development firm with extensive experience in the bioenergy industry. As explained in detail in the attached letter, we are very interested in providing input and assistance as the new RES regulations are developed, particularly with respect to the treatment of bioenergy. We have a wide range of experience in this area and could provide tremendous value to the California RES policy development. Please contact me if you would like to discuss further.

Thank you,
Anneliese
